

Volunteer Help Is Needed

The Georgetown Elementary's Reading Counts program helps to encourage students to read and awards students who achieved their reading goals with a celebration party. The Reading Counts Party is Friday, May 15th and volunteers are still needed for many open times. It's a very busy time of year for everyone, but if you could help with the 3rd, 4th, or 5th grade parties, please let me know. A volunteer list with all open times is attached.

The Reading Counts Parties are great way to show our students that they did an outstanding job in reaching their reading goals; however, the parties are only successful with the help of many volunteers. Please contact me if you or even a friend would be available to help with the last party of the school year!
