

**HUDSONVILLE PUBLIC SCHOOLS
TRANSPORTATION DEPARTMENT**

WELCOME TO KINDERGARTEN

Safety First:

Hudsonville Transportation Department is concerned with the safety of every student.

Bus routes are compiled in the summer months for all Elementary age students and are designed to be as safe and economical as possible.

Local environment, hazards, policies and State of Michigan laws and guidelines are used and considered when planning the bus routes.

Parents are responsible for the safety and conduct of their children while walking to and from the designated bus stop and while they wait at the designated bus stop to board the bus. Please have your child to the bus stop 5 minutes prior to the scheduled stop time. Being late to a bus stop can create a hazardous situation. A parent or responsible adult may be requested to meet your child as they exit the bus at the end of the day.

Notes requesting a change in bus transportation are not accepted from Elementary students.

Day Care:

To eliminate much of the confusion that occurs when Kindergarten students go to day care, we request that you **DESIGNATE ONLY ONE PICK UP AND ONE DROP OFF ADDRESS WITHIN THE ESTABLISHED ROUTE**. Established routes are those that the bus normally travels. We are more than happy to pick up at day care and drop off at home or vice versa, as long as a request is made in writing to the Transportation Department and is on a regular schedule. A day care form is attached for your convenience.

Routes cannot be altered to encompass the day care providers address. Please return your day care information to our department as soon as possible.

Questions, please call 669-7757.

Your cooperation is greatly appreciated,
Transportation Department
