Sean Black (9)

Diagnosed at five
with Juvenile
Idiopathic Arthritis
(JIA)

Medical Honoree

Infusion Associates is a multi-site, outpatient infusion center founded in 2001 with goals to provide high quality, cost effective, alternative sites of care for medically prescribed intravenous infusion therapy. We are our patient's trusted partner and friend. Our goal is to be the standard of care they want and need. We believe that the environment we create is just as important as the type of medication our patients receive. Our promise is this: once you come through our doors, you are family.

Adult Honoree
